### ***Experience***

#### **Front-End Developer**

##### *Freelance*

1. Developed custom websites using React, HTML, CSS, and Redux Toolkit, including a gym app that achieved excellent client satisfaction.
2. Implemented custom responsive designs and accessibility for all users, featuring dynamic page styling across various screen sizes using Tailwind CSS. [Repo Here](#)
3. Migrated multi-page user experiences like e-commerce apps to single-page applications, including a portfolio link using React.

#### **Programmer/Tutor**

- Instructed students on fundamental programming concepts, including OOP principles and data types, to aid their exam preparation, also helped refine my own subject.

### ***Technical Skills***

- **UI Designing**
- **JavaScript**
- **Functional Programming**
- **CSS & HTML**
- **State Management:** Context API
- **Custom Hooks**
- **Version Control:** Git
- **Package Managers:** npm
- **React Hooks**

### ***Programming Expertise***

- Managing state with Context API and Hooks.
- Designing reusable UI components in React using JavaScript and ES7 features.
- Efficient state management with Redux Toolkit.
- Leveraging asynchronous programming techniques using Promises.
- Writing pure functions with composition to avoid side effects.
- Crafting memory-efficient, composable, and predictable code.

### ***Projects***

**Netflix Clone** | [Deployed Link](#)

- Created the UI for Netflix using the TMDB API for movie content. GitHub Repo [Here](#).

### **Zomato Clone** | [Deployed Link](#)

- Built a responsive multi-page website using React.js. GitHub Repo [here](#)

### **YouTube Clone** | [Deployed Link](#)

- Built and deployed a YouTube-inspired application. GitHub Repo [here](#)

### **Education**

- **Common Sense** – Self-Taught
- **Programming/Coding/UI Design** – Internet (Self-Taught)
